

Play&Work

# Technical description

## Product range and dimensions

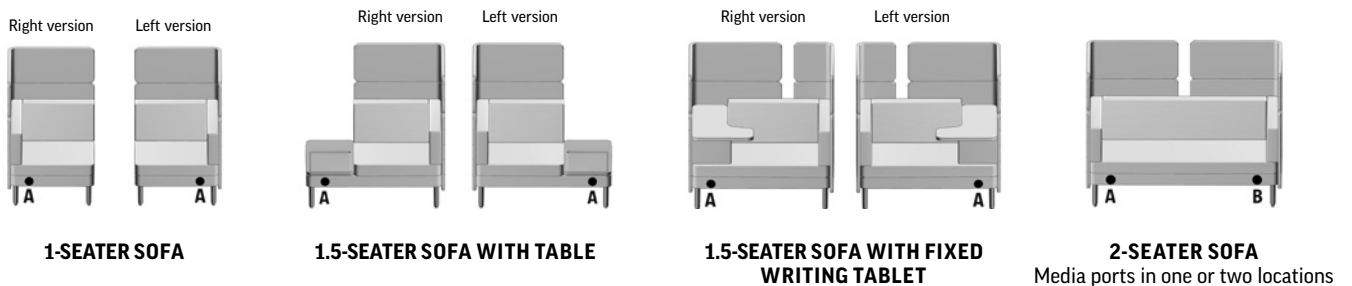

## Sofa construction

base [1], lower part of seat [2], backrest, armrests and upper part of seat [3], panels [4], upper panels as an option [5]  
writing tablet (for 1,5-seater sofa with fixed writing tablet) [6], table (for 1,5-seater sofa with table) [7]

## Media port location:

Play&Work soft seating line consists of the following modules: 1-seater sofa, 1,5-seater sofa with table, 1,5-seater sofa with fixed writing tablet, 2-seater sofa and freestanding table. Left and right versions available for 1-seater and 1,5-seater sofas. For 1,5-seater module, right or left version is defined by the table or fixed writing tablet location from perspective of seated person. For 1-seater module, right or left version is defined by the corner panel location from perspective of seated person.

## Sofa construction

### Base

Base consists of two „U” shape legs made of bent tube, diameter 30 mm. The legs are fitted with adjustable glides, and are fixed to the frame of the seat.

### Lower part of seat

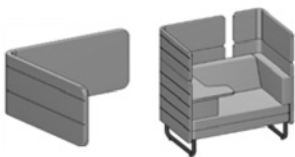

Seat frame is made of wood covered with upholstery lined with foam. The bottom part of seat is covered with black fleece. The height of finished lower seat part is 100 mm.

### Backrest, armrests and upper part of seat

Upper part of seat is made of foam, thickness 100 mm, upholstered and fixed to lower part of seat by means of Velcro type fixing. The same type of connection is used for upholstered backrest and armrests. Seating comfort is ensured by appropriate thickness and density of the foam used for seat and backrest. The cushions are not recommended to be removed.

### Panel and upper panels

The structure of pannels is made of plywood covered with upholstery lined with foam, thickness 5 mm. Panel is assembled to back part of seat, total thickness is 30 mm. The panels are available with or without upper panels. The structure of upper panel is made of plywood covered with upholstery lined with foam, thickness 5 mm. Stitching visible on external part of the panel and upper panel is one of distinctive features of Play&Work system.

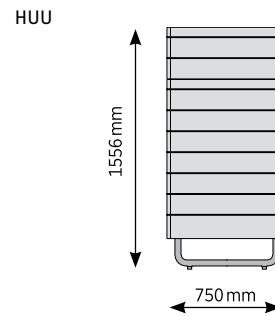

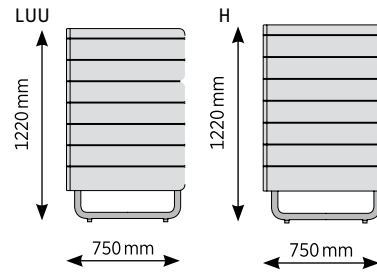

Sample of upper panel use in 1,5-seater sofa with fixed writing tablet.

Upper panels are assembled to low panels by means of connectors. Both low and high panels are equipped with mechanisms with holes ready for clicking the connectors screwed to upper panel.

### Panels and upper panels configurations:

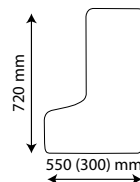

- LUU - low panel + upper panel
- H - high panel
- HUU - high panel + upper panel

Total height of sofa with panel configuration [mm]:

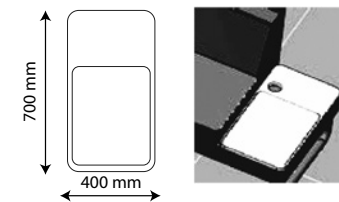

### Writing tablet for 1,5-seater sofa

Writing tablet is made of melamine faced chipboard MFC (according to finishes), thickness 25 mm, fixed to sofa and not foldable, with storage for personal items under the tablet top. The front part of storage space is covered with upholstered foam. The writing tablet has 2 mm edge in glue or laser technology defined as standard depending on colour of melamine, see finishes on page 192.

### Table for 1,5-seater sofa

Table is made of solid beech or oak wood with shaped storage on the top surface, total table top thickness 25 mm. It is assembled to the seat structure while the production process. Mini Batt wireless charger or wireless charger with adapter available for the table to be placed in cut out, both as an option.

Wireless charger location

## Sofa and panels upholstery configuration

The same upholstery type is recommended to be used for a specific sofa version. Colours from the same upholstery type can be mixed in the following upholstery parts:

### 1. Sofa - upholstery colour mix

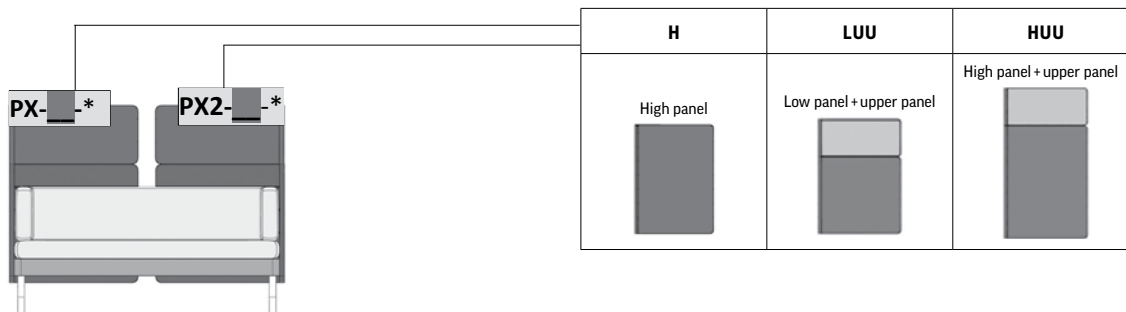

Two parts of sofa with upholstery colour mix according to the drawing:

### 2. Panels - upholstery colour mix

Depending on sofa version one or two panels available. In case of two panels, version and upholstery colour mix to be configured separately.

Panel versions and upholstery colour mix sample configuration:

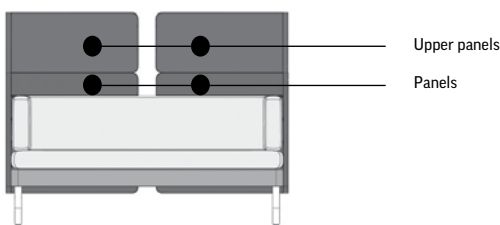

- PX-H-\*\* PX-H-CUZ1E
- PX-LUU-\*\*/\*\* PX-LUU-CUZ1E/CUZ1P
- PX-HUU-\*\*/\*\* PX-HUU-CUZ1E/CUZ1P

\*Upholstery colour code for each panel version.

\*\* Panel finish.

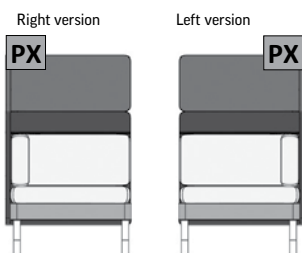

\*\*\* Upper panel finish.

Upholstery colour mix: the same colour for low panels and the same for upper panels possible according to the drawing.

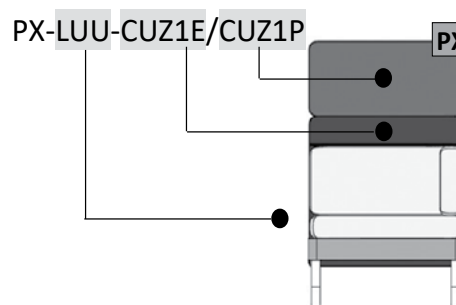

### 3. Panel ordering guidelines

Codes for panels differ depending on sofa version.
