The functionality of individual workstations is optimised thanks also to accessories like the cable flap, which gathers together wires in a single place.

Nelle postazioni singole la fruibilità del piano di lavoro è ottimizzata, grazie anche agli accessori quali lo sportello passacavi, che disciplina i fili e li concentra in un unico punto.

Preserve the form and guarantee practicality: for the X4 collection sliding desk tops have been designed with a perfectly integrated cable management system so as not to compromise its aesthetic appearance.
