

# Bound

Bound is for those who love to experience reality in a beautiful and emotional way. It is a statement of living in the here and now, where human relations and feelings matter most.

# **“Quality is irreplaceable”**

— Ernst Kusch

To us, quality is the concept that translates not only into our products, their design, materials and precision we proceed with, but also into our approach. It's our motivation that propels us to constantly explore customer's needs and address them through our solutions. As a man is in the centre of our interest, we don't want to offer him just the products – we want to give him the quality, that can truly improve his work, his everyday and the environment he lives in.

SOMETHING AMAZING  
*IS BOUND*  
*TO HAPPEN*

*BOUND*

The Bound soft seating collection comprises an armchair, sofa and table. Its reductive yet powerful design saturates any space with loads of emotions, making that place unforgettable.

Enjoy the safe embrace of Bound and feel how relaxed you're becoming. You are in blissful surroundings, so get focused on the interactions with your close friends or business partners.

As Karim Rashid says:

*Design is about the betterment  
of our lives aesthetically.*

Bound furniture is designed to play with human senses – sight, touch and general perception. It aspires to engage the emotions and stick in memory.

Bound's beauty with its mesmerising hues, keeps people from feeling tired. Its charisma fosters the anticipation that an extraordinary day is about to unfold.

# COM FORT

A cubical form was given some softness.

The reduced-to-the-essentials, minimalist character was given a hint of sensuality. This is how Bound becomes the seamless extension of our body, dosing the feeling of bliss.

# BA *LANCE*

Make your lounge chair truly yours.

Customize your Bound, as its colourful or subtly muted versions are equally delightful.

A wide, capacious seat shell is waiting to soothe and calm your body and soul.

Some spaces must be kept neat and clean regardless of the circumstances. Thanks to Bound's memory function, the armchair not only stands firm, but also automatically returns the seat shell to the default position after the user vacates the place.
